

**George & Rita Arnold**

1430 Hwy 58 S.E.

LeRoy, KS 66857

Phone: 620-964-2463 or 2423

e-mail: retail@arnoldsgreenhouse.com

www.arnoldsgreenhouse.com

Located 4½ miles west of LeRoy on Hwy 58 (Note: Hwy 58 was named Hwy 57 prior to 2005).

Or 7 miles south of Burlington on Hwy 75 and 1¼ miles east on Hwy 58.

Or 14 miles north of Yates Center on Hwy 75 and 1¼ miles east on Hwy 58.

**GARDEN CENTER HOURS:**

Monday through Saturday, 9am until 7:30pm in March, April, and May.

Monday through Saturday, 9am until 5pm in June, July, August, September, and October.

Monday through Friday, 9am til 4:30pm from November through February (open by appointment on Saturdays from November through February)

Always Closed on Sundays!

Openhouse: A Gardening Salebration: April 2nd through 7th, 2012. \*\*Please note: Because of cool spring temperatures, we aim to have most of our annuals ready around the first to mid part of April. Most annuals grown in 4.5 round pots and larger will be available during Openhouse, but varieties grown in 4 packs and jumbo 6 packs and heat loving annuals may not be ready yet. All trees, shrubs, roses, and perennials should be available by early March. Thank you for your understanding!

# 2012 Plant Wishbook & Garden Guide

Our 2012 Plant Wishbook & Garden Guide has descriptions of our 3,200+ varieties of plants, cultural information, and a pronunciation guide for each genus. The 2012 Plant Wishbook & Garden Guide can be viewed and printed off for free on our website, [www.arnoldsgreenhouse.com](http://www.arnoldsgreenhouse.com). If you wish to receive a hard copy of the 2012 Plant Wishbook & Garden Guide, you can pick your free copy up here at the Greenhouse or at our booth at one of the garden shows.

Due to postage costs, there is a charge for a mailed hard copy of the 2012 Plant Wishbook & Garden Guide. To receive your copy by mail, there is a \$5.00 charge for the postage and handling.

For your copy, please mail a check or money order to:

Arnold's Greenhouse, Inc.

Attn: Darlita

1430 Hwy 58 S.E.

LeRoy, KS 66857

Or, you may order your Wishbook over the phone, 620-964-2463 or 2423.

## Availability

This plant list lists all of the plants we plan to have available this spring, along with the price(s) of each. Please note, not all plants will be available at the same time, but we believe all will be available sometime during the spring. We do not maintain an on-line availability list; however, if you would like to know if a certain item is available, please call us! We grow our plants in limited numbers, attempting to match availability to the demand. Inevitably, we fail. To get the best selection, we suggest you shop for your plants early in their availability season.

We open for the spring on March 1st. March is a wonderful time to plant perennials as it gives the perennials a chance to get established before summer weather arrives. Many of our perennials have been hardened off (acclimated to the cold weather) by the time we open in March. Because we grow nearly all of our own perennials, the best selection of perennials is in early March. However, we have a great selection of perennials all spring, although we might be sold out of a few varieties in April and May.

We grow some of our own shrubs, but the majority of our trees and shrubs arrive by mid March. Berries are often available by the first of March. Fruit trees are often available by mid March. Strawberries and Rhubarb are available by mid to late March.

We grow all of our own roses. Roses are available beginning in March, but it is best to wait until at least the very end of March to purchase them, as they will be leafed out by then. Roses purchased in early March (before they are leafed out) will need to be misted several times a day to encourage them to continue to leaf out.

We grow all of our own herbs. Perennial herbs are available by March first. Most annual herbs are available by the first part of April.

We grow all of our own vegetables. Cool season vegetables (Broccoli, Brussels Sprouts, Cabbage, Cauliflower, Leeks, Lettuce, and Swiss Chard) are available the first of March. Asparagus crowns, Seed Potatoes, and Onion Sets are available in early March. Onion Plants are available by mid March. Tomatoes and Peppers are available by mid April, sometimes by early April. Vine Crops (Cantaloupe, Cucumbers, Pumpkins, Squash, and Watermelon) require warm soil, and thus are not available until the end of April. Sweet Potato plants are generally available by the first of May.

We grow all of our own annuals. Most annuals are frost sensitive and should not be planted out until the danger of frost is minimal (the last average frost date in southeast Kansas is mid April). Cool season annuals, such as Pansies and Osteospermums, are ready in March. Annuals that can tolerate a bit of cold and a light frost are usually ready by the first part of April. The rest of the annuals are ready by mid April. Should a frost be predicted after you have planted your annuals, they can usually be protected from the frost by covering them with a sheet or blanket. If frost is predicted and the annuals are planted in a container or hanging basket, bring the container or hanging basket inside for the night.

Hardy aquatic plants, floating plants, and submerged plants are usually available by mid April. Tropical aquatic plants and Lotus are usually available by the first part of May.

Spring blooming bulbs and fall mums and asters are usually available by Labor Day and until the end of October.

**\*\*The 'available by' dates should be used as a guide only.\*\*** With our huge selection of plants, we will have a nice selection all of the time, but we will not have all 3,200 varieties of plants available on the exact same date. Please use the guidelines above to select the best times to come shop for your favorite plants. Our best selection of plants will always be in the spring, with about 80% to 90% of the varieties of plants also being available in the summer and fall months. If you are coming for a particular plant, please call to make sure we have the plant you are wanting available. Thanks!

# Caring for Your Plants Before You Plant Them

## **DURING THE SPRING AND FALL**

By early to mid March, most of all of our perennials have been acclimated to the cold temperatures (i.e. "hardened off"). If you are unable to plant your trees, shrubs, and perennials right away and the temperatures are above freezing, please place them outside in a sunny area out of the wind. If the temperatures fall below freezing, please place them indoors in a very sunny window. Even when hardened off, some perennials are sensitive to frost and may show leaf damage if they are frosted; however, in nearly all cases, the plants will put forth new growth from the crown.

Most all annuals are sensitive to frost. The last average frost for southeast Kansas is in mid April. If you have planted your annuals outside and a frost is forecasted, we suggest covering your annual flowers and vegetables with a blanket or sheet- anything to keep the frost off of the plants.

If you purchase your annual plants before the weather is warm enough to plant them, they should be placed indoors near a very sunny window and kept watered and fertilized. They can be placed outside in their pots as long as it is above freezing.

Your plants should be watered when the potting soil is just starting to get dry, generally every day or every other day. We also recommend you fertilize your plants with Daniels Plant Food every time you water, or at least once a week.

## **DURING THE SUMMER**

Put your plants in a semi-shaded place out of the hot afternoon sun, such as under a shade tree or on the north side of a building. Everyday, water your plants until water runs out the bottom of the pots. Use Daniels Plant Food every time you water, or at least once a week. Plant your plants as soon as possible.

## Traveling with Your Plants

If possible, please use an enclosed vehicle to transport your plants. Plants being transported in an open truck need protection, so please bring an old sheet or tarp to shield your plants from heat, cold, and especially the wind. Please do not leave your plants enclosed in a hot vehicle.

## Our One Year Guarantee for most Trees and Shrubs

We guarantee our trees and shrubs to be true to name and free of disease at the time of purchase. Our responsibility is to provide you with healthy plants that are true to name. Your responsibility is to care for them after purchase. If, after proper planting and care, any guaranteed woody plant that you buy from Arnold's Greenhouse fails to grow, we will refund the purchase price for the period of one year from the date of purchase. We cannot be held liable for any amount greater than the purchase price. Since we have no control over the climatic events and conditions in your area, we cannot be held liable for plants damaged due to animals, vandalism, neglect, frost, freezing temperatures, or any other mechanical or natural event.

Trees, Shrubs, Conifers, and Berries listed in the current Arnold's Greenhouse Plant Wishbook & Garden Guide as being hardy to zone 5 or colder are included in this guarantee. Azaleas, Rhododendrons, Roses, Japanese Maples, Fruiting and Flowering Cherries, and woody plants listed as only being hardy to zone 6 or warmer in the current Arnold's Greenhouse Plant Wishbook & Garden Guide (even if the plant was planted in a zone 6 garden) are not included in this guarantee.

Your gardening success will be greatly enhanced by planting your plants in the desired sunlight and soil conditions, using MYKE at the time of planting, amending your soil beyond the planting hole, mulching, watering, and fertilizing. It is VERY important to not plant trees too deeply (find the root flare), and to not mound up mulch around the tree trunk (2" to 3" of mulch is sufficient, keeping it an inch or two away from the trunk). A tree and shrub planting guide is available at the check out.

To expedite guarantee returns, please present your dated receipt and the plant.

## Our Extended Five Year Guarantee for most Trees & Shrubs

Extend our One Year Guarantee on most trees and shrubs (\*trees and shrubs listed in our catalog as only being hardy to zone 6, Roses, Japanese Maples, and Fruiting and Flowering Cherries are not included in our guarantee) to a full five year guarantee with the purchase and use of Tree and Shrub MYKE, a beneficial mycorrhizae! A 20 year world wide study has shown that mycorrhizae enhances root development and doubles the plant's uptake of water and nutrients, thus enhancing plant establishment and causing your plants to grow faster.

\*\*There are a few plants that MYKE will not colonize, such as Blueberries, Azaleas, and Rhododendrons. MYKE will not hurt these plants, but it will not help them either. The Five Year Guarantee does not cover woody plants that are not colonized by MYKE.

To receive your Five Year Guarantee, the appropriate amount of Tree & Shrub MYKE must be purchased at the same time as you purchase your trees and shrubs.

To expedite guarantee returns, please present your dated receipt and the plant.

## Our Guarantee for all other plants

We guarantee our plants to be true to name and free of disease at the time of purchase. Our responsibility is to provide you with healthy plants that are true to name. Your responsibility is to care for them after purchase. If we fail in providing healthy plants, please let us know within 1 week of purchase, and we will refund the purchase price. We cannot be held liable for any amount greater than the purchase price. Since we have no control over the climatic events and conditions in your area, we cannot be held liable for plants damaged due to animals, vandalism, neglect, frost, freezing temperatures, or any other mechanical or natural event.

Your gardening success will be greatly enhanced by planting your plants in the desired sunlight and soil conditions, using MYKE at the time of planting, amending your soil, mulching, watering, and fertilizing. A planting guide is available in our Plant Wishbook & Garden Guide. We also have tip sheets available in the garden center for various plants.

## NATIVE PLANTS

**A Taste of the Tall Grass Prairie**  
The native flowers and native grasses are available only as a collection of 18- jumbo 6 packs (108 plants total) for \$149.99. Please ask us for a brochure featuring the plants in "A Taste of the Tall Grass Prairie" and some suggested planting plans! Following are the plants in the collection (we reserve the right to substitute plants that may be unavailable):

NATIVE FLOWERS:	
Asclepias tuberosa	Bk jumbo 6pk
Aster laevis	Bk jumbo 6pk
Baptisia australis	Bk jumbo 6pk
Cassia fasciculata	Bk jumbo 6pk
Coreopsis palmata	Bk jumbo 6pk
Echinacea purpurea	Bk jumbo 6pk
Gaillardia pulchella	Bk jumbo 6pk
Helianthus occidentalis	Bk jumbo 6pk
Monarda fistulosa	Bk jumbo 6pk
Ratibida columnifera	Bk jumbo 6pk
Rudbeckia hirta	Bk jumbo 6pk
Solidago rigida	Bk jumbo 6pk
NATIVE GRASSES:	
Andropogon gerardii var. Kaw	Bk jumbo 6pk
Bouteloua curtipendula	Bk jumbo 6pk
Panicum virgatum var. Blackwell	Bk jumbo 6pk
Schizachyrium scoparium	Bk jumbo 6pk
Sorghastrum nutans	Bk jumbo 6pk
Sporobolus heterolepis	Bk jumbo 6pk
